huzaifa50100@gmail.com / +92 3237635919 / Karachi, Pakistan

## Summary

Results-driven **Machine Learning** and **Deep Learning** Engineer with 3 years of experience in developing innovative solutions. Specializing in **end-to-end** model development, from problem formulation to deployment, I have a proven track record of delivering cutting-edge AI solutions for diverse applications. Proficient in leveraging pre-trained models and the latest frameworks, I excel at optimizing model performance and ensuring scalability. My expertise extends to **MLOps**, enabling seamless workflow management. With a strong foundation in both technical and business domains, I bring a unique perspective to project understanding. Passionate about **AGI** and space exploration, I aim to drive innovation and impact through technology.

## Experience

### Machine Learning Engineer | React/Next.js Developer

Upwork

07/2023 - Present

Offering services as a freelance Machine Learning Engineer creating end-to-end AI solutions and providing top-notch React/Next.js development with a keen eye for performance and design.

### Machine Learning Engineer | React/Next.js Developer

Fiverr

04/2023 - Present

Offering services as a Freelance Machine Learning Engineer and React/Next.js Developer delivering top-notch AI-based and web dev solutions with a keen eye for performance, scalability, and design.

### Machine Learning Engineer

Freelance

02/2020 - Present

Offering services as a Freelance Machine Learning Engineer delivering top-notch end-to-end ML and DL solutions for complex problems using the latest frameworks and technologies.

---

## Skills

TensorFlow, Analytical and Critical Thinking, Problem-Solving, Organization and Time Management, Teambuilding, Python, HuggingFace, Langchain, Pandas, Matplotlib, Kubernetes, MLFlow, Docker, Git, KubeFlow, PyTorch, OpenCV, JavaScript, TypeScript, AWS, PyCaret, Tailwind, React, Next.js, Web Development

---

## Education

### BS Business and Information Technology

Virtual University of Pakistan

03/2027

This blend of **BS business and IT** degree has equipped me with strategic business analysis, project management, and technical proficiency in web development and machine learning, as well as the ability to bridge the gap between technology and business objectives.

### Machine Learning & Deep Learning

PIAIC

02/2024

In this intensive bootcamp-style course, I am mastering the implementation and training of complex deep learning algorithms and models. The specialization in machine learning and deep learning provides a comprehensive understanding of end-to-end solutions, including deployment to the cloud. This hands-on training equips me with the skills to develop and deploy sophisticated machine-learning solutions.
